

18th European Young Statisticians Meeting

26 - 30 August 2013, Osijek, Croatia

The European Young Statisticians Meeting (EYSM) is a conference organized every two years under the auspices of the European Regional Committee of the Bernoulli Society. The aim is to provide a scientific forum for the next generation of European researchers in probability theory and statistics. The meeting will gather about 50 participants coming from about 25 European countries.

Participants are less than 30 years old or have 2 to 8 years of research experience. They are chosen by invitation only in a uniformly distributed way in Europe (2 participants per country). Every participant gives a talk and writes a short paper introducing his/her research subject. The papers will be published in peer-reviewed conference proceedings.

Applicants from Switzerland are requested to submit a short CV and an abstract (limited to one page) of a potential talk per e-mail to Johanna Fasciati Ziegel (johanna.ziegel@stat.unibe.ch).

The deadline for submission is 15 January 2013.
