The Department of Operations invites applications for the position of

SNF senior researcher fellow

Date of start:	01.01.2014
Duration of contract:	18 months
Employment rate:	100%
Workplace:	Lausanne Dorigny

Desired qualifications:

Doctorate in statistics, actuarial science, management science, computer science, industrial engineering, operations research or operations management

Job description:

The project is a SNF research project in collaboration with University of St. Gallen.

The objective of the project is to develop and apply new statistical models for supply-chain analytics in general and for demand-based on-shelf availability in particular, considering intraday seasonality and high frequency feature of shopper demand for retail shelf replenishment and inventory.

Application materials:

Cover letter, curriculum vitae, doctoral thesis, scientific publication, letter of recommendation

Applications should be sent to valerie.chavez@unil.ch
For further information please contact valerie.chavez@unil.ch

Deadline for applications:

05.11.2013

Tél. +41 (0)21 692 3467 | Fax +41 (0)21 692 3305 | valerie.chavez@unil.ch
